betty cannon is the first to explore the implications of sartrean philosophy for the freudian psychoanalytic tradition drawing upon sartre s work as well as her own experiences as a practicing therapist she shows that sartre was a fellow traveler who appreciated freud s psychoanalytic achievements but rebelled against the determinism of his metatheory the mind sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as freud s work suggested sartre advocated an existentialist psychoanalysis based on human freedom and the self s ability to reshape its own meaning and value through the sartrean approach cannon offers a resolution to the crisis in psychoanalytic

metatheory created by the current emphasis on relational needs by comparing sartre with freud and influential post freudians like melanie klein otto kernber margaret mahler d w winnicott heinz kohut harry stack sullivan and jacques lacan she demonstrates why the sartrean model transcends the limitations of traditional freudian metatheory in the process she adds a new dimension to our understanding of sartre and his place in twentieth century philosophy
